Meanwhile, Engr. Angelie M. Moroscallo, TWG Chairperson presented the scope of works, to wit:

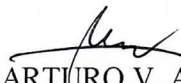

1. Completion of Wet and Dry Standpipe Fire System
2. Fire Detection and Alarm System (FDAS)
3. Construction of the Cistern Tank
4. Supply and Installation of Sun Baffles
5. Supply and Installation of Toilet Urinals
6. Tile Works (Supply and Installation)

### III. Other Matters

1. Milo Saldon, TWG member and FAD Chief, explained and clarified the significant matters:
  - a. That in case of payment of bid documents by any prospective bidder, it shall be facilitated by his office in the meantime. (A bid bulletin may be published about this )
  - b. That once this project be awarded to a winning bidder, a problem may come up during the simultaneous construction of the Science Laboratory in the first floor of the Academic Building I as fume hoods will be put in place all the way up to the third floor. Mr. Saldon pointed out that it may have something to do with the setting up of sun baffles for the concurrent project. Hence, it was emphasized that proper coordination be made by the two contractors while doing their respective projects.
2. The BAC Chair also asked the prospective bidders' representatives to present during the Opening of Bids a letter of authority and an ID both issued by the company or construction firm that they represent.

Since there were no other matters discussed, the Pre-Bid Conference for the Completion of Academic Building I (Rebid) was then adjourned at 10:45 in the morning.
